ATI Piccolo

The multi-purpose electric vehicle for harvest collection and transport.

The ATI Piccolo is a multi-purpose vehicle designed for all types of harvesting and transport operations. It can accommodate up to 4 operators at the same time for collection operations, or up to 2 for pruning and maintenance of plants.

Its state-of-the-art electronic driving system designed to meet the needs of modern fruit farming, makes it an ideal vehicle for running a wide range of operations. Thanks to its decidedly polyvalent character, the Piccolo boasts an excellent price-performance ratio.

Technical datasheet

Engines	DC engines, Nominal output 2 x 1,1 KW	Maximum payload	Transport box 400 kg, platform 200 kg, each ladder 100 kg
Brakes	Electromechanical brake via a worm gearing system	Tyres	15 x 600 x 6
Steering	Skid steering via joystick	Total length	1,30 m
Batteries	2 x 12V dry-cell batteries 110Ah each. Weight 35 kg each. Working autonomie ≈ 10h	Total width	0,70 m
Battery charger	Standard 10 A electronically controlled. Charging time: 10 – 12 hours	Working platform	Length: 0,80 m, Width: 2,10 m
Driving speed	Continuously variable from 0 – 3 km/h	Working height	Min. 1,30 m standing height
Climbing performance	Max. 25%	Ladder	Height: 1,50 m Width: 0,50 m Single operator
Weight	Empty ca. 160 kg
