## ATI CAT 1000

A powerful transport vehicle for vineyards in steep landscape with a caterpillar system to operate on difficult grounds.

The CAT 1000 is an indispensable all-round helper for vineyard farmers around the world. Harvesting becomes much more efficient with the adjustable loading platform of the CAT 1000. All year-round maintenance and transport jobs are easier with the reliable support of this fully electrically operated vehicle.

## Technical datasheet

<b>Motors</b>	2 DC motors, nominal output 2 KW each	<b>Driving Speed</b>	Continuously adjustable from 0 – to max. 3 km/h
<b>Gearbox</b>	Self-impeding worm gearing	<b>Climbing Capacity</b>	Approx. 30%
<b>Brakes</b>	Electromechanical brake system – via worm gearing	<b>Weight</b>	Empty 300 kg, max. payload 300 kg
<b>Steering</b>	Tank steering by means of a joystick	<b>Caterpillar Size</b>	180 x 72 x 37
<b>Control</b>	Forward and reverse drive directions by means of a joystick	<b>Loading Platform</b>	Length: 1,10 m, Width: 0,70 m, tiltable
<b>Batteries</b>	4 x 12V dry cell batteries 110Ah each. Working autonomie ≈ 20h	<b>Machine Length</b>	1,80 m
<b>Battery Charger</b>	Standard equipment 10A electronically controlled. Charging time: 10 – 12 hours	<b>Machine Width</b>	0,70 m
