ATI Greenhouse

A highly versatile working platform for greenhouses and indoor activities.

The ATI Greenhouse is a cost-effective oneperson working platform with a variable height from 0,60 m to 1,40 m. Through its smooth, low-vibration, and low-noise operation based on a powerful electric drive and its reliable electronic control, any professional indoor work becomes a pleasure.

Technical datasheet

Engines	DC engines, Nominal output 2 x 1,1 KW	Weight	240 kg
Brakes	Electromechanical brake via a worm gearing system	Maximum payload	150 kg
Steering	Skid steering via joystick	Tyres	15 x 600 x 6
Batteries	2 x 12V dry-cell batteries 110Ah each. Weight 35 kg each. Working autonomie ≈ 10h	Working platform	Length: 1,30 m Witdth: 0,60 m
Battery charger	Standard 10A electronically controlled. Charging time: 10 – 12 hours	Working height	From 0,60 m – 1,4 m electromechanical adjustable
Driving speed	Continuously variable from 0 – 3 km/h	Total length	1,50 m
Climbing performance	Max. 25%	Total width	0,75 m
